

# Manage Your Desktops, Not Your Storage

Scale Storage Differently with VM-aware Storage

## PRODUCT OVERVIEW

T800 Hybrid-Flash

T5000 All-Flash

### Storage Made Simple

VM-level performance isolation eliminates I/O boot storm

Ease of management enables you to focus on desktops

Low cost per desktop with the highest VM density

## KEY DIFFERENTIATORS

Everything at VM-level lets you focus on your virtualized applications.

Guaranteed performance

VM-level real-time and predictive analytics

Scale-out platform from 17TB to 10PB

## TINTRI INTRODUCTION

VM-aware storage is built for virtualization and cloud.

Industry leaders, including 7 of Fortune 15 companies, have trusted **70** petabytes and **600,000** mission critical VMs on Tintri.

## TOP 3 BENEFITS

Performance

Manageability

Value

6x faster performance

95% less management

90% less storage

## ESG LAB RESULT

1 Datastore to manage

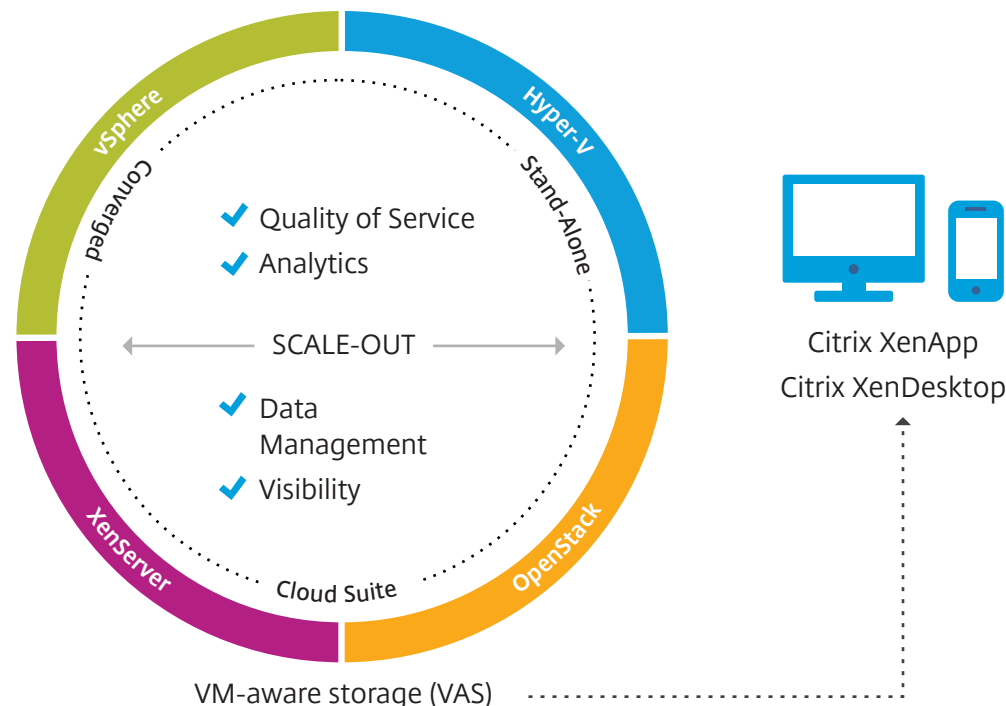

8 minutes to install, configure and deploy the first VM

2.5 hours to deploy 1,000 linked clones

## PRODUCT INTEROPERABILITY WITH CITRIX PRODUCTS

To see is to believe.
